DEACTIVATORS

ARCADE ACTION!

WITH STRATEGY ELEMENTS

C64 version

Amstrad version

Spectrum version

A group of fantical saboteurs have infiltrated the Gravitational Research Institute and planted numerous time bombs throughout the 5 laboratories. They have also reprogrammed my robot guards to act against me.

As head of security I must now call in my elite force of Deactivator Droids to clear the bombs and repair the computer. They will have difficulty moving from room to room as floors may be ceilings and ceilings may be walls. Also the rooms have different gravities. The Deactivators are my last hope to save the institute from destruction. Lets' hope they haven't been drinking!
